CONTAIN

(These technologies no longer meet the requirements of the current architecture and are not recommended for use. They will be phased out over time. No date has been set for their discontinuance.)

Technology	Platforms	Technology Classification
N/A	--	Contain

RETIRE

(These technologies are being phased out. Plans should be developed for their replacement, especially if there is risk involved, such as lack of vendor support. A date for retirement has been set.)

N/A	--	Retire by mm/dd/yy

EMERGING / RESEARCH

(Emerging technologies have the potential to become current standards. At the present time, they should be used only in pilot or test environments where they can be evaluated. Use of these technologies is restricted to a limited production mode, and requires approval of a waiver request. Research technologies are less widely accepted and it is too early to determine if they will become a standard.)
