

Geospatial Technologies Website Move

On April 18, the Geospatial Technologies website will become part of the Office of Administration website at www.oe.pa.gov, under Information Technology.

This move is part of the enterprise-wide effort to transition agency websites from the current portal platform to SharePoint.

As part of this effort, we have dramatically streamlined our content to focus on our service offerings and resources for the GIS community.

Here is what you need to know in order to prepare for the migration.

1. Effective April 18, www.gis.state.pa.us will redirect to the new content on the OA website.
2. You should update any bookmarks or favorites to point to the new content on the OA website.
3. Document links on www.gis.state.pa.us will no longer work after April 18. You should update any document links you may be using after the new content goes live.

If you have any questions, please contact Dan Egan, OA Communications Director, at 717.772.4237 or degan@pa.gov.
