1. Purpose

Policy on the use of an internet access control and content filtering solution that allows the commonwealth to block access to internet sites and content which pose a risk to the security of the network.

2. Scope

This Information Technology Policy (ITP) applies to all departments, boards, commissions and councils under the Governor's jurisdiction. Agencies not under the Governor's jurisdiction are strongly encouraged to follow this ITP.

3. Policy

All internet traffic will be directed through the commonwealth's Internet Access Control and Content Filtering (IACCF) implementation. All entities utilizing commonwealth internet access are required to submit a waiver if business requirements conflict with the IACCF implementation, minimum filtering policies detailed in section 6, Minimum Configuration Requirements for IACCF. All entities are to follow the change management process to request filtering policy changes.

If an agency under the governor's jurisdiction is using a similar solution from a different vendor, the agency is to leverage the COPA Enterprise IACCF implementation for internet monitoring and filtering upon expiration of the agency's current contract. Refer to OPD-SEC003A *Enterprise URL Deny/Allow Rule Set* for IACCF product standard information.

4. Minimum Configuration Requirements for IACCF

The minimum requirement consists of a Disallow rule for the following categories. Each category has a specific exemption process that is documented in the configuration table. Refer to Section 11 Exemption from This Policy for guidance.

Enterprise URL Denied and Allowed Rule Set

The Enterprise Information Security Office (EISO) will maintain OPD-SEC003A *Enterprise URL Deny/Allow Rule Set* which agencies and delivery centers must comply with. This operating document specifies which public URLs are allowed or not allowed access to from the commonwealth network.

Agencies or delivery centers needing access to Category "Denied" URLs for business requirements must submit a COPPAR ITP waiver request against this policy. If approved the waiver is to be submitted as part of a Service Request to Allow the URL for the specific agency or delivery center.

Agencies may create any amount of more Category "Deny" (but not "Allow") rules per business requirements that are not identified in OPD-SEC003A.

5. Responsibilities

Commonwealth's Chief Information Security Officer (CISO) will regularly audit entity filtering policies for compliance with this policy and its associated standards.

Agency/Delivery Center Information Security Officers (ISOs) or designates are to ensure agency/delivery center internet traffic is in accordance with this policy.
