### 1. Purpose

The purpose of this Information Technology Policy (ITP) is to establish enterprise-wide standards and policies for office productivity technologies.

### 2. Scope

This Information Technology Policy (ITP) applies to all departments, boards, commissions and councils under the Governor's jurisdiction. Agencies not under the Governor's jurisdiction are strongly encouraged to follow this ITP.

### 3. Policy

Agencies should standardize on the following current office productivity software and document viewer and reader standards. The current standards have been tested for compatibility with enterprise applications.

Office productivity software is application software dedicated to producing information, such as documents, presentations, worksheets, databases, charts, graphs, and digital video. Document viewer and reader software provides the following capabilities:

- Preserves the original graphic appearance (e.g., magazine articles, product brochures, flyers, office documents, spreadsheets, presentations, scheduling tools, diagrams)
- Zooms in and out
- Pages forward and backward
- Views, prints, and searches

Document viewer and reader software provides a richer user experience with content and interactivity with native support using familiar tools.

With the help of viewers, files can be shared with users who don't have office productivity tools installed on their desktop

#### Current Office Productivity Software Standards

(These technologies are the current standard and meet the requirements of the enterprise. They are recommended for use and can be deployed immediately.)

Technology	Products	Technology Classification
Office Productivity Suite	Microsoft Office 2016* Microsoft Office 2013	Current

Word Processing	Microsoft Word 2016* Microsoft Word 2013	Current
Spreadsheet	Microsoft Excel 2016* Microsoft Excel 2013	Current
Graphics/Presentation	Microsoft PowerPoint 2016* Microsoft PowerPoint 2013	Current
Desktop Database	Microsoft Access 2016* Microsoft Access 2013	Current
Messaging & Calendaring	Microsoft Outlook 2016* Microsoft Outlook 2013	Current

**Notes regarding Current Products:** \*For developers, BOBJ Dashboard 4.1/Xcelsius and Live Office Dashboard may not work with Office 2016.

- Each product should be tested by the agency to ensure that they work with agency specific applications.
- Service packs should be tested and deployed in accordance with ITP-SYM006 - *Desktop and Server Software Patching Policy*.
- Refer to ITP-SFT006 *Internet Browser Policy* for Internet browser technology standards.

### Contain Office Productivity Software Standards

(These technologies no longer meet the requirements of the enterprise and are not recommended for new deployments. Existing deployments of these technologies are to be phased out over time.)

**Notes Regarding Contain Products:** Service packs should be tested and deployed in accordance with ITP-SYM006 - *Desktop and Server Software Patching Policy*.

### Emerging/Research Office Productivity Software Standards

Emerging technologies have the potential to become a current standard. At the present time, they are to be used only in pilot or test environments where they can be evaluated. Use of these technologies is restricted to a limited production deployment, and requires approval of a waiver request.

## 7. Publication Version Control

It is the user's responsibility to ensure they have the latest version of this publication, which appears on <https://itcentral.pa.gov> for Commonwealth personnel and on the Office of Administration public portal: <http://www.oa.pa.gov/Policies/Pages/default.aspx>. Questions regarding this publication are to be directed to [RA-ITCentral@pa.gov](mailto:RA-ITCentral@pa.gov).

## 8. Exemption to This Policy

In the event an agency chooses to seek an exemption, for reasons such as the need to comply with requirements for a federally mandated system, a request for waiver may be submitted via the Commonwealth of PA Procurement and Architectural Review (COPPAR) process. Requests are to be entered into the COPPAR Tool located at <http://coppar.oa.pa.gov/>. Agency CIO approval is required.
